Apologies-K Bird, J and J Dale, B Hackett, M Brungs

Minutes from previous meeting- Read and accepted-D Treloar 2nd F Shanahan

No matters arising from the previous meeting

New Business:-

1. **Hoylake Reserve-**Councilor White addressed the meeting regarding the Reserve and forwarded to the committee SCC information
2. **Cycleway-**Councilor White also forwarded the SCC information regarding the proposed path and cycle way
3. **Havilland Street boat ramp-** The Conjola Community Association has been advocating for years that this regional boat ramp should go ahead because there was only Killarney private boat ramp that could adequately cope with larger boats. The committee were aware that should Killarney ramp close that would create problems and now it has closed larger boats are now going to Fisherman's Paradise ramp causing problems there. The Havilland Street and Entrance Road intersection will need major road works for safety reasons. The Boat Ramp is being designed by SW Service Design. Tenders will be sent out and August 2021 is hopefully the starting date. The cost is estimated to be around \$1,7m
4. **Coastal Management Program-** The Royal HaskoningDHV project team are currently working on data collation and compilation and we are at Stage 2 at present. Stage 3 commencing July 2021 will identify and evaluate options and Stage 4 beginning November 2021 will prepare, exhibit, finalise, certify and adopt CMP.

5. **Expressions of interest** were asked for in relation to forming sub committees (working groups) ie Shorebirds, Liaison and IT

6. **General Business-**

- a. Conjola Evacuation point-It was pointed out that the Bowling Club would be a more appropriate point as opposed to the Community Hall
- b. A member of the committee made the meeting aware that phone lines were preventing constructing a garage on his own property
- c. After the fire that hit Conjola area the point was made that there is even more fuel available after the varying weather conditions ie heavy rain followed by sun. Who is responsible for the clearing of the road ways and who will be doing anything about the tree debris that has been left in large piles at various places throughout Conjola?

There being no further business the meeting closed at 9-10pm

Next Meeting: To Be Advised
