

Bush Fire Emergency Planning for Carers of Young Children

DO YOU HAVE OR CARE FOR CHILDREN AGED FIVE OR UNDER AND LIVE IN A BUSH FIRE PRONE AREA?

Australian Red Cross is partnering with the NSW Rural Fire Service on an innovative project to engage with parents and carers of children aged five or under about their bush fire safety. Carers can be grandparents, aunts, uncles and/or informal arrangements in which you look after another person's child/children. We would like to know how prepared you are and what information you would find helpful.

Please assist us by completing this survey about your bush fire preparation and planning. The survey results will help us to develop engagement methods best suited to your needs.

To access the survey visit:
